Remarks:

- Additional order received after 17 March 2026 is subjected to a 20% surcharge and for onsite order (Subject to availability).
- For exhibitor or appointed contractor, please sketch power points on a separate drawing.
- The location of electrical box shall be informed to the official contractor 15 days before move-in. Relocation of electrical box will NOT be accepted onsite.
- The prices above are only for indoor booth. All items are on rental basis only.
- Raw Space Exhibitors should order the individual power point (minimum 15Amp / 380V) with its own distribution box equipped with circuit breaker and leakage protector. All power main installation from source to outlet must be carried out by the Official Contractor.
- The electrical power outlets are strictly for single exhibit / machinery usage only. Power outlets are not to be used for lighting purposes. According to venue's regulations, 24-hour power supply will be three times of electricity fee.
- For other request or enquiry, please contact the official contractor.
